

Ms. Ward's EXTRA EXTRA

Ms. Shannon Ward..... 920-279-3062
<http://www.uwosh.edu>..... Vol.1, Issue 1
October 8, 2009

Hi, my name is Ms. Ward and I will be your student's 10th grade Spanish teacher. Our classroom will

be a fun, educational and respectful environment. In Spanish 2, we will explore the language, history and many cultures of the Spanish-speaking world. Because the process of learning a foreign language takes a lot of patience and dedication, we will all need to work together and support each other through this exciting, but sometimes difficult journey. I can't wait to get started! ¡Ánimo!★

21st Century Learning

In our class, the inclusion of technology as a learning tool will be cohesive to every lesson. With the rapid advancement of technology, it is vital to prepare our students for utilizing technology to form higher-order thinking and problem-solving skills, learning skills, self-directional skills, future professional skills, etc. The opportunities to apply technology to everyday life are endless. Studies have found that, unfortunately, our students are using

ESPAÑOL

Unit 1: Los países hispanohablantes

In our first unit, we are going to learn about the various Spanish-speaking countries and what makes each one unique. If you have any photos or fun stories about any Spanish-speaking country, please, share them with us because we are eager to learn more. Also, by asking your student to teach you about the countries, not only will s/he understand more clearly, but you may also learn something new!★

technology (computers, iPods, Internet, etc.) more at home than at school. Also, many students reported that when they did use technology at school it rarely connected to the lesson being taught. In other words, some teachers are just killing time with computer playtime. In our class, we are going to break this mold by creating a link between our lessons and technology and relating them to everyday situations in the Spanish-speaking world.★
